Control and Automation in the Communications Era

Conference Info: **:**   **16th September 2003,**
Irchem 2003 Exhibition,
Curraheen Park,
Bishopstown,
Cork.

Unique conference format

Conference offers YOU a unique opportunity to directly compare four of the major Control and Automation Solutions available in Ireland today.

 "Control and Automation in the Communications Era,"

The Second Read-out Forum
A symposium - sponsored by ISA Ireland
In conjunction with Irchem 2003

Manufacturers offer their solutions in an insulated environment which makes it very difficult to compare the pro / cons of these systems with their competition.

The second Read-out Forum offers participants a unique opportunity to compare and contrast four of the leading Control and Automation Systems' under four important categories which will be lead by key note speakers from Irish Industry.

In response to this we have altered the standard conference format. Our keynote speaker will outline in 15 minutes their thoughts and opinions on a specific topic. Then each manufacturer in sequence will have 10 Minutes to highlight how their system meets these criteria. This is followed by a question and answer session from the floor where the delegates attending the conference will be quickly able to question, compare and contrast the presentations.

The conference will be held as part of IRCHEM 2003, Ireland's premier process and industrial exhibition. It is sponsored by ISA Ireland, the instrumentation, systems, and automation society. It will be held on 16th September 2003.
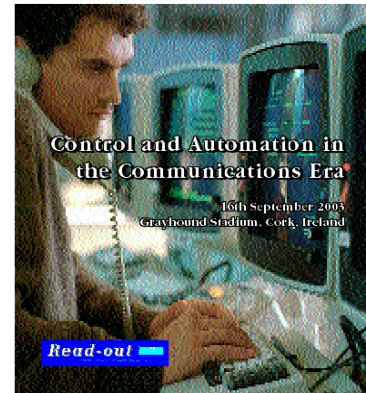

The conference will allow the attendees to examine all 4 aspects of control in the modern era particularly in the light of the communications revolution of the last ten years.

Each segment is first addressed by a user or avowed expert in the particular field being examined. Then each manufacturer (ABB, Emerson, Honeywell and Siemens) give their presentation showing their particular take on that aspect.

The conference topics are :

- Control and Communication - Future Proofing Your System
- Electronic Paper / Batch Tracking - the next level
- Accessability and Interoperability of Control Systems
- Security of Network, Data and prevention of hostile attacks on the system.

Control and Automation in the Communications Era

Conference Info: **:**   **16ᵗʰ September 2003,**
Irchem 2003 Exhibition,
Curraheen Park,
Bishopstown,
Cork.

*The organisers have been fortunate in securing **Andrew Bond**, possibly the leading independant commentator on control and automaation in Europe to chair the seminar. He is the editor of the incisive "Industrial Automation Insider." Other speakers come from Britain and the US as well as from Ireland.*

• Read-out is Ireland's journal of Instrumentation and Control and has been published for the past fifteen years. It has an enviable reputation in the instrumentation and control community not only in Ireland but throughout the world through the internet site known as the Instrumentation Signpost – www.read-out.net. This site was launched in 1994 and now welcomes approximately three thousand visitors per week. Read-out organised the first Read-out Forum some years ago and the subject was Fieldbus.

• ISA Ireland is a section of the internation Instrumentation, Systems, and Automation Society. With more than 300 members it has been serving instrumentation and control professionals for the past twenty five years. Their website is www.iol.ie/~isaire.

More details are on website http://read-out.net/forum.

The Second Read-out Forum
A Symposium – sponsored by ISA Ireland
Control and Automation in the Communications Era
16th Sept 2003 - at IRCHEM 2003, Cork

Time		Speaker	Company
9.15	Registration		
9.40	*Introduction and Welcome.*	Eoin O Riain	Read-Out
9.45	*Opening*	Peadar Walsh	President ISA Ireland
9.50	*Chair*	Andrew Bond	Editor, IAI
	Control and Communication	**– Future Proofing Your System**	
10.00	*Control Systems Today.*	Joe Haugh	Zenith
10.15		Ulli Mueller	ABB
10.25		Nick Taylor	Emerson
10.35		Chris Morse	Honeywell
10.45		Seán Cahill	Siemens
10.55	Questions & Answers		
11.10	Tea / Coffee		
	Electronic Paper / Batch Tracking		
11.20	*What is required? The*	**TBA**	
11.35		Nick Taylor	Emerson
11.45		Chris Morse	Honeywell
11.55		Seán Cahill	Siemens
12.05		Ulli Mueller	ABB
12.15	Questions & Answers		
12.30	Lunch		
	Accessability and Interoperability of Control Systems		
2.00	*What is required? The*	David McBrearty	MCOS
2.15		Chris Morse	Honeywell
2.25		Seán Cahill	Siemens
2.35		Ulli Mueller	ABB
2.45		Nick Taylor	Emerson
2.55	Questions & Answers		
	Security		
3.10	*What is required? The*	Brian Ahern	Verano
3.25		Seán Cahill	Siemens
3.35		Ulli Mueller	ABB
3.45		Nick Taylor	Emerson
3.55		Chris Morse	Honeywell
4.10	Questions & Answers		
4.20	*Summing Up*		
4.35	*Thank You and Acknowledgements*
